Author's Contract with GMS Interdisciplinary Plastic and Reconstructive Surgery DGPW

§ 1 Subject Matter of the Contract

1. The subject of this contract is the submitted work of the author under the title:
2. The author insures that he alone is authorized to dispose over the rights of use on his work promoted by copyright and that hitherto he made no legal concessions that oppose to the provisions of this contract. This also applies to the standard texts or master illustrations supplied by the author and whose rights of use he holds. If he offers GMS Interdisciplinary Plastic and Reconstructive Surgery DGPW (in the following: GMS IPRS) standard texts or master illustrations for which this does not apply, or where it is uncertain if this applies, then he has to inform GMS IPRS about it and about all recognizable legally relevant facts known to him. As soon as GMS IPRS assigns the author with the procurement of other standard texts or master illustrations, it requires a special agreement.
3. The author is obligated to point out to GMS IPRS in writing if the work includes interpretations from persons or incidents with which the risk of an infringement of personal rights is connected. He ensures immediate notification of the service provider in case of doubt or of alleged or actual legal hindrances.
4. The rights holder exempts the service provider of any third-party claims.

§ 2 Rights

1. The author transfers to GMS IPRS the basic right of duplication and circulation of machine readable data media and their safeguard media.
2. The author transfers to GMS IPRS the right to electronic storage in databases and web pages, to make available to the public for individual requests and display on the monitor. This also comprises the right to notify and transfer the document to third parties e. g. within the framework of national collection mandates, especially for the purpose of long-term archiving.
3. The author transfers to GMS IPRS the right for the translation into the English language.
4. The author transfers to GMS IPRS the right to Print-on-Demand-Production.
5. The author transfers to the portal German Medical Science the right to copy and to convert the document for archiving purposes into additional, different electronic or physical formats. When doing so, impairments which are suitable to endanger the content's integrity or the intellectual and personal rights of the author on the work are to be omitted.
6. GMS IPRS grants an online-access-right to the author pertaining to his work that is stored in the database.
